Subject: Updated RFQ Constraints - Interior Materials

Team,

After discussions with ESG, we've decided to strictly enforce the 30% recycled content baseline across all interior parts.

This means NorthFab's 27% won't qualify unless they revise their blend.

Please update RFQ-RPT-005 accordingly and communicate this to shortlisted vendors.

- Priya

Subject: Re: Updated RFQ Constraints - Interior Materials

Understood. I'll update the RFQ and follow up with VerdaMold instead. They meet the spec and are open to price negotiation.
